- Create and maintain system landscape **configuration documentation**
- **2nd and 3rd level support** and **central point of contact** to users
- **Work with the relevant departments** for the further development of the system landscape
- Analyze **problems**, develop **solution** concepts and implement them by means of **customizing**, if required
- In addition, take on responsibility in **current SAP projects**
- If required, create **training** documents and conduct the training courses for the users and key users

### We offer you:

- 37-hour week with full-time contract
- 30 days of annual leave
- Flexible working hours and partially mobile working
- An international, globally operating team
- Attractive salary package and extra payments
- Individual professional development opportunities
- Annual feedback discussions
- Company pension plan and health care
- Regular team events
- Free coffee and on premise cafeteria
- On premise car park and secured bicycle parking
- An office easy to reach by public transport

### Your profile:

- Completed university degree in IT, computer science or related
- At least 5 years of relevant professional experience
- In-depth understanding of production processes and extensive experience in SAP PP as well as in-depth knowledge of SAP MM
- In-depth knowledge of ERP (SAP), ideally with experience in the S4/HANA and FIORI environment
- In-depth knowledge of ABAP and initial experience with ITIL
- Customer-oriented and professional appearance
- Very good communication skills and consulting skills
- Team spirit and intercultural competence
- Fluent in English and German

As a **SAP PP/MM Specialist (m/f/d)**, you can expect varied tasks in a technical, international environment. You will be supported by our competent and highly motivated team.
